

## International pavilions

A country pavilion is the most efficient way into the growing Asian market and offers several benefits. High visibility goes along with a convenient infrastructure at reasonable costs. An ideal springboard to find new customers and create business opportunities.

### German Pavilion

On the initiative of the German Electrical and Electronic Manufacturers' Association (ZVEI), with the support of the Federal Ministry for Economic Affairs and Energy (BMWi), and in cooperation with the Association of the German Trade Fair Industry (AUMA), a German Pavilion has been organized for many years.

### Official website

You will find detailed information about the exhibitors of the German Pavilion and their products and innovations on the official website of the German Pavilion.

➔ [Go to the official website for the German Pavilion](#)

**The application form will be available in September.**
