
Exhibitor Statements (In alphabetical order)

Victor Bao, Technical Support Manager, Universal Robots (Shanghai) Co., Ltd. (Denmark)

We have at least attended four productronica China in a row. It is very attractive to us because the visitors it invites are mostly electronics manufacturers, who are in great demand of our equipment. We like this exhibition a lot and hope it will become even better in the future.

Yong Chen, Senior Manager, Robot Business Center, NACHI (Shanghai) Co., Ltd. (Japan)

The exhibition this year is very influential and the visitor flow is great. Most of the visitors are from the electronics manufacturing or electronic parts industries, so we robot manufacturers have made very good results. Next year we will exhibit again and we hope we can have a better cooperation with the organizer.

Jason Guo, EFD General Manager, Greater China, Nordson (China) Co., Ltd. (USA)

productronica China is our first smart manufacturing-related exhibition this year. It is also the one with the most intelligent products. We have made contact with many important customers and partners at the exhibition. We will continue to come next year and wish productronica China will become a symbol of the Chinese electronics industry.

Huang Jianyong, Director, Precision Machinery Division I, Shanghai Yishi Trading Co., Ltd. (Japan)

This is our fourth participation in productronica China. The exhibition is better in both customer quality and number. Customers from SMT-related fields are growing. We plan to expand our booth next year and exhibit our latest equipment. We hope to cooperate with customers from different industries.

Tim Juta, Managing Director China, Komax (Shanghai) Co., Ltd. (Switzerland)

productronica China is particularly interesting for us, because we can see the whole wire processing industry in one spot and the show is always of high standard. Every year, we have new highlights which we presented here and we will visit the exhibition next year.

Fanny Lee, General Manager (Asia Region), Europlacer (Shanghai) Co., Ltd. (France)

It is our fifth attendance at productronica China. In the past five years, both the visitor number and quality have made steady progress. The exhibition is also improving. The SMT Innovation Point is very special. Next year, we will attend again with our latest technology and equipment.

Jack Lu, CEO, Shenzhen Tensun Industrial Equipment Co., Ltd. (China)

We trust the professionalism and market coverage level of productronica China. The visitors are all very professional and they come from every field in the electronic manufacturing industry. We have participated in productronica China for about 10 years and will continue to come next year by sharing with our customers more high-end products.

Maurice Liao, Product Marketing Manager, SMT Solutions Division, ASM Assembly Systems Ltd. (Germany)

In recent years, productronica China has become better every year. There are more SMT exhibitors. I believe in the future there will be even more exhibitors and the exhibition will become a better communication platform.

Morimoto Ryohei, Manager, Mounter Sales Division, Sales Group, YAMAHA Motor IM (Suzhou) Co., Ltd. (Japan)

productronica China gathers a lot of customers and we feel the results very good. Every year we show our machines in this show and we can learn a lot from the robotics companies nearby. We are very satisfied with the visitor flow and quality and we are sure to join this show next year.

Martin Stier, Head of Business Development, Schleuniger GmbH (Switzerland)

This show is very good, and we have a really high density of visitors in our booth, so we are very satisfied with the customer visits. It is a must for us to be here at the show, and we will be participated in the show next year for sure.

Gerald Xie, Vice General Manager, Kurtz Shanghai Limited, Erska Asia Pacific (Germany)

We have cooperated with productronica China for several years. It is a place where customers can find solutions for everything, and this is what attracted us. The number of our pre-registered customers is clearly more than last year, so we are quite confident about the results. Also we plan to expand our booth next year.

Haihong Zhu, CEO, Shanghai United Intelligence Robotics Inc. (China)

We made contact with a lot of potential customers at productronica China 2018 and they come from both China and abroad.

Lei Zhou, Industry Segment Manager (Greater China Region), Electronic and Light Assembly Division, Festo (China) Ltd. (Germany)

productronica China is very influential in this fast-growing industry. It brings us a lot of trend-setting information in the market. So it is worth attending.
