Exhibitor Statements (In alphabetical order)

Chinyuan Chu, Sales Manager-Central China, Heller (Shanghai) Co., Ltd. (USA)

We exhibited at productronica China for the first time this year. There were many visitors from the semiconductor industry, therefore we will bring more related machines and expand our booth next year.

Herbert Hofmann, Vice President of CRM, Managing Director of Greater China, ASM Assembly Systems Ltd. (Germany)

productronica China provides us a very good opportunity to exhibit our new products. Many of our customers visited this show and got a lot of information about automation and Industry 4.0 here.

Jacky Hua, Senior Manager of Sales Dept., Tamura Corporation (Japan)

We made many new contacts at this show. The visitor flow is very impressive and we are very satisfied. We will join in productronica China again in 2017 because we think it will help us to expand our business within the industry.

Jianwei Huang, Vice President, Fuji Machine China Co., Ltd. (Japan)

We were very busy to receive clients from different industries. Our demand was fulfilled with many customers from the semiconductor and automotive electronics industries. We would like to thank the show organizer for such a great platform. And we are sure to join the productronica China next year.

Titan Huang, General Sales Manager, Rehm Thermal Systems GmbH (Germany)

We were very surprised about the high visitor flow. We find the visitor number is increasing each year. productronica China provides us a good platform and we are sure to join the show next year and showcase our new technologies and new machines.

Date: Mar 18 - 20, 2020

Julian Kingsbury, President, SMART DEVICES (China)

productronica China is a very good platform for us. After our first participation in this show, we have more customers and our market share improved. This year, the visitor flow was very satisfying and we made a lot of new contacts. We will participate in productronica China again next year.

Fanny Lee, Asia General Manager of Europlacer (Shanghai) Co., Ltd. (UK)

We have participated in productronica China for three years. And we see an obvious increase in the visitor number from the SMT industry. Many of our clients came to this show and were impressed by the scale and scope of it.

Xiaobing Liu, Deputy General Manager of Robot Business Center, NACHI (Shanghai) Co., Ltd. (Japan)

This is the first time we took part in productronica China. Many clients visited our booth. We knew this event is important for the industry. That is why we came here and offered automation solutions to our customers at this show.

Guoming Lu, CEO, Shenzhen Tensun Industrial Equipment Co., Ltd. (China)

We have participated in productronica China for the sixth time. It is a good platform for us. The visitor number is increasing and the exhibitor quality is getting better. During the show, the visitors kept us very busy. So, we will continue to support productronica China in the future.

Angel Peng, President, Hiwin Technologies (China) Corp. (Taiwan)

This is the first time for us to participate in productronica China. We are very satisfied with the result. We are surprised about the visitor flow and met a lot of customers with high demand on automation. We have already booked our booth at productronica China 2017 and we will expand our space next time.

Chengliang Qin, Project Supervisor of Robotics Sales & Engineering, EPSON China Shanghai Branch (Japan)

productronica China has built up its brand recognition and is able to attract a lot of professional visitors interested in robotic and automation equipment. Besides our existing clients, we met many new customers from the 3C and electronic industry.

Morimoto Ryohei, Manager of Sales Group, Mounter Sales Division, Yamaha Motor IM (Suzhou) Co., Ltd. (Japan)

Many VIP customers came to this show and we built many new contacts. We are sure to participate in productronica China next year.

**Marcus Setterberg, Managing Director, Komax (Shanghai) Co., Ltd.
(Switzerland)**

We are very satisfied with the number of visitors. We had discussions with our existing clients and potential customers. They had a very good impression of this show. productronica China is one of the most important shows for us, so we brought our most important new machine Alpha 550. There is no better place in Asia than productronica China to exhibit our best machines. We are sure to join the show next year.

**Martin Stier, Head of Business Development, Schleuniger Group
(Switzerland)**

We are very happy that many customers from IT, automotive and communication industry visited our booth. And we showcased our new machine CoaxCenter 600, which won the productronica innovation award at productronica in Munich. It is unique in the market. We will participate in productronica China 2017 in any case.

**Gerald Xie, Vice General Manager, ERSA Asia Pacific, KURTZ
Shanghai Limited (Germany)**

Every year we find new, impressive things at productronica China. There are more and more visitors, most of whom are professional buyers and we will dig out more sales leads from them. We are sure to continue our participation and expect more professional visitors next year.

**Richard Yang, Commercial Director, Universal Robots (Shanghai)
Co., Ltd. (Denmark)**

We met a lot of professional visitors from electronics, electronics equipment and related industries here. productronica China helps us find potential buyers and partners. So, we have very positive expectation of the result this year. And we will continue our participation next year.

**Sugimoto Yoshiyuki, General Manager, Musashi Engineering
Shanghai Ltd. (Japan)**

We have participated in productronica in Munich for many years but this is the first time that we took part in productronica China. We are impressed by the power of the exhibition in China and very surprised about the show scale, product scope and the number of visitors. We are already looking forward to exhibiting next year.

**Sam Zhao, Technical Manager, Mycronic (Shanghai) Co., Ltd.
(Sweden)**

We are very glad to see the show is well-organized and the visitors have become even more professional.

**Lei Zhou, Great China Industry Segment Manager, FESTO (China)
Ltd. (Germany)**

We are very grateful to the organizer for such a great trade show. From the client information we collected, we find most customers came with the intention to make orders. Many of them are from the electronics, semiconductor, PCB, machine manufacturing industries or application fields.
