

Parallel events

All in one—your ticket allows you to attend all four exhibitions in three days.

Attractive synergies for visitors

productronica China takes place in conjunction with electronica China, which presents the entire value chain of the electronics industry in China. The co-location of LASER World of PHOTONICS China and SEMICON China creates even more attractive synergies and added value for visitors. The four fairs provide insights into the latest technologies and applications in all electronics sectors as well as the photonics industry.
